

MATHSCITY LEEDS

MathsCity is egg-cited to welcome you between Friday 29th March and Sunday 14th April for our Easter holiday celebration!

Above our usual selection of over 30 mathematical exhibits, this Easter we will be exploring fluid dynamics through creating decorated egg designs with our popular “egg marbling” activity, as well as harbouring a hidden egg as part of the [Breeze Pass Easter Egg Hunt](#).

Running from Friday 29th of March to Sunday 14th April, these extra activities are available alongside our permanent exhibits.

Venture inside MathsCity and climb inside our giant bubble, explore shapes with the laser ring of fire, and get hands-on with all of our exciting puzzles and games.
