

# MATHSCITY LEEDS

**From half-term activities and National Numeracy Day, to celebrating the contributions of women in mathematics and exploring “Our Chaotic Earth”, we have a jam-packed May ahead of us here at MathsCity!**

## **New Exhibits: Our Chaotic Earth**

Be the first to try our new exhibits exploring the unpredictability of our planet how small changes can lead to big differences in “Our Chaotic Earth”.

From population growth and extinction to avalanches and cyclones, this new zone is OPEN NOW!

## **7<sup>th</sup> - 12<sup>th</sup> May: International Women in Mathematics Day Celebrations**

Extra information and activities will be available around the centre highlighting the contributions of women in mathematics behind all our exhibits. Check out our social media during this week for some posts highlighting the amazing work our staff members do in mathematics and physics.

## **14<sup>th</sup> – 24<sup>th</sup> May: Celebrating National Numeracy Day & our Big Number Natter**

National Numeracy resources and activities will be available throughout this period. Pop into our foyer anytime between 13.00 and 16.00 on Wednesday 22<sup>nd</sup> May to take part in our Big Number Natter.

## **25<sup>th</sup> May – 2<sup>nd</sup> June: May Half-Term Activities**

This May half-term we are celebrating the new “Our Chaotic Earth” zone in style with extra activities including an exploration of the mathematics behind sea defences with our wave tank and a dive into oceanic flow supported by the Fluid Dynamics team from the University of Leeds! Over May half-term we are open every day between 10.00 and 17.00, book now so you don’t miss out!
